Methods of Instruction at the College to Be Broadened Gradually.

SCHOOL OF BIBLICAL LITERATURE.

To Begin Class Work That May Lead to Such an Addition-Personnel of the Faculty with Pictures of the

The prospects for a large attendance next session at Richmond College are ary, 1873. Early in July President Boatwright wrote to nearly a thousand alumni and friends of the college in Viroperate with him in increasing the num-ber of students. Replies have been reprived by the score, and the President is assured that the friends of the institution are working for it as never before. Already more catalogues than are usually printed have been distributed through out the Southern States, and the list of prospective students contains sevehundred names. Some of these young men are not ready to enter the liege this term, but a large number have already engaged rooms. Fully two to college in September.

There will be no sweeping changes in ethods of instruction. The Professor of memistry will probably introduce a larger amount of laboratory work into vance of science. In the law school Judge liver special courses of lectures. Regular

desire of the trustees that more desire of the trustees that more taken of student surroundings, one will be regularly inspected, octations carefully watched, and done for their comfort and such dy. The President cerdially aparoper system of athletics, ample and beautiful playafford every needed facility for recently.

CONNEL OF THE FACULTY. la view of the reorganization of the facility, and the retirement therefrom of these of the oldest and most distinguished professors, the public will be intrested to learn something of the personnel of the corps of instructors for the approaching term, and to see what sort of looking men the newly-chosen instructors are. The matter that follows and the pictures herewith presented will sup-

ply in a general way the information desired on these points:

Professor Charles H. Winston, who fills the Chair of Physics, is the senior member of the faculty, having been elected August 4, 1873. Next in point of service comes Professor W. L. Thomas, of the Chair of Philosophy, who was chosen in June, 1881. Professor John Pollard was elected to the Chair of English in June, 1881. Professor F. W. Beatwright, now president of the college, began teaching modern languages in the fall of 1890, Judge Rozer Gregory was placed in charge of the law school in 1890, and Procharge of the law school in 1890, and Pro-Judge Roser Gregory was placed in charge of the law school in 1890, and Pro-fersor R. E. Gaines of the Chair of Ma-thematics in September of the same year.

thematics in september of the same year.
The new professors are: A. M. Carroll,
of Greek, J. R. Hunter, of Chemistry,
and C. S. Mitchell, of Latin. Rev. Dr.
Charles H. Ryland, secretary, treasurer,
and librarian, has performed the important functions of those offices since January 1872. PRESIDENT BOATWRIGHT. who has entered upon his work with great

tegrity, wide influence, and rare gifts for
leadership and executive control. He was
born at the White Sulphur Springs, W.
Va., spent his boyhood at Marion, Va.,
where his father was a pastor, and where
he pursued his studies preparatory to entering Richmond College.

As a student at college he was a man
of brawn as well as brain, being as apt in
remarkable feats on the campus as for
accurate and comprehnsive attainments
in the class-room. When a student Mr.
Boatwright organized the course of training in the gymnasium, and was its first
instructor. He will be able to show to
the undergraduates, who will naturally

"sana mens in corpore sane."

instructor. He will be able to show to the undergraduates, who will naturally look up to him as the model man, the "sana mens in corpore sano."

After graduating as a Master of Arts. Mr. Boatwright rounded out his training with a professorship in view at famous universities in German several books, which gained considerable circulation. Upon his return to this country he was appointed by the Board of Trustees instructor in Greek, and so well done was his work and so unusual his facility and effectiveness as a teacher that the Professor of Greek reported to the trustees his unqualified approval. From the first however, Mr. Boatwright's preference was for modern languages. He was made at first instructor in French and German, and afterwards professor of modern languages.

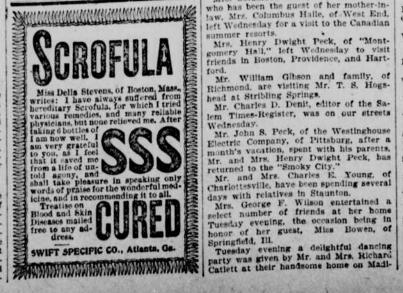

President Boatwright founded, three or

Dr. Joseph Rufus Hunter, of the Chemistry Chair, is an A. M. of Wake Forest College, and a Ph. D. of Johns-Hopkins University. He was at Johns-Hopkins University four years, and held an honorary scholarship the entire time. He has taught three years—one at Wake Forest and two at Oshkosh University, Wis. He is a man of fine presence and delightful manners. lelightful manners.

Talking All Over the County of An Entertaining Game of Ball-

A Very Merry War-Two Rival Associations Making Things Warm-Personal Points.

STAUNTON, VA., August 10 .- (Special.) In the past six months Augusta county has been ramified with local telephone lines, so that well-nigh every village and cross-roads is connected by with Staunton, and the "tintinnais a bulation of the bells" rings with almost unbroken strain from Rockingham to Rockbridge, from the Elue Ridge on the east to the county's western confinesthe altitudinous Alleghanies. These telephone systems have not been built for public profit; but merely for the convenience of the users. They are mutual co-operative companies. They have proved to be of inestimable benefit to city and country alike. Every day the farmers and producers are called up by Staunton, and the day's prices ruling in the city markets are detailed to all who may be The farmer is in this way enabled to bring to town his products when the market is most favorable to him, and when prices are best, while, on the other hand, the Staunton merchants by this easy mode of communication with the producers find it advantageous in keeping up a regular stock of farm pro-Heretofore these various telephone sytems, though running to Stannton, have been independent of and disconnected with each other.

The other day a meeting of the various interests was held, and a plan perfected, by which all the county lines will run into one central exchange in Staunton. which will greatly facilitate business and enlarge the usefulness of the systems.

THE SEVERAL LINES.

The lines thus connected are

These two organizations are flerer invise, and propose to reverse the philosopic natural law that "two bodies cannot occupy the same space at the same time."

The Baldwin Fair Association, which is an old institution, some years ago, sold its grounds and buildings to the city, with certain provisions empowering the association to annually hold its exhi-

bition on the grounds.

Subsequently a rival organization was chartered—the Live Stock Association. This latter association, some time ago, having secured the city's permission to use the fair-grounds, advertised its dates as September 10th to 13th, both inclusive. At the City Council meeting this week, Colonel William E. Craig, as counsel for the Baldwin people, addressed the Council, enveighing against the dates selected by the live stock crowd, as prejudicial to his clients interests, adding that a meetbition on the grounds. by the live stock crowd, as prejudicial to his clients' interests, adding that a meet-ing held at the time proposed would "skim the cream." and leave the poor blue milk to the older organization. Mr. R. S. Ker appeared for the Live Stock Association. The Council did noth-ing conclusive at this meeting.

Ing conclusive at this meeting.

Later in the week Mr. J. Julian Pratt, secretary of the Baldwin District Fair Association, addressed a letter to Mr. Heber Ker, the live stock secretary, informing him that the Baldwin Association had that day selected the dates already claimed by Mr. Ker's associates. And that's the condition to-day.

What the outcome will be is difficult to determine.

determine.

FARM SOLD. Mr. Charles E. Ellerson, of Richmond, bought this week at the administrator's sale the valuable farm of the late D. D.

Coyner, situated some two mies from Waynesboro', in the richest farming section of Augusta.

The "Hickory Hill" property was incleded in the sale, and the price paid was

Dr. B. M. Atkinson was at the Greenbrier White Sulphur Springs this week, having been called to see a patient there. Mrs. Columbus Haile, Jr., of St. Louis, who has been the guest of her mother-in-law, Mrs. Columbus Haile, of West End. left Wednesday for a visit to the Canadian

son's Hill in compliment to their cousin, Miss Erakine, of Huntsville, Ala.

BLACKSBURG.

Lawn-Tennis Association.

BLACKSBURG, VA., August 10.-(Special.)-Lieutenant John T. Knight, United States army, now stationed in Richmond, is at present a guest of Mr. Alexander Black, of our town, having arrived on Saturday last. He is on a visit to his family, who are spending the summer here. He says that the weather here is in delightful contrast to that ex-

here is in delightful contrast to that experienced in Richmond.

On last Monday evening a very entertaining game of ball took place between the cadets remaining here during the summer and the Yellow Sulphur team, composed of visitors. Numbers of vehicles, gayly bedecked in yellow, came over from the Springs quite early. The one which attracted especial notice was an ordinary country wagon filled with pretty girls. For a while the air resounded with Yellow Sulphur cheers and yells.

LAWN TENNIS ASSOCIATION.

A lawn tennis association was or-ganized in Blacksburg on Saturday last ganized in Blacksburg on Saturday last. Its membership is composed of the fami-lies of the faculty and some of the stu-dents of the college. Under its auspices a tennis tournament has been arranged for both singles and doubles. The object of the association is social, as well as to learn to play good tennis. Professor W. N. Barton paid our town

a flying visit this week. His friends in the college were more than pleased at the unexpected pleasure, but regretted that he found it necessary to remain so

JULIUS MEYER & SONS'

ANNUAL

AUGUST SALE.

Our last big sale cleared out every line of the big purchases we made the first part of June of those manufacturers who came to us for relief-who were eager enough to sell at our own figures their entire stock .- We've acknowledged we made bigger purchases than we could sell in the regular way in several months, but HALF MANUFACTURERS' COST meant selling at wholesale price. We did it in our Grand Inventory Sale .- We'll do it again with this second vast purchase made the latter part of June. This annual August Sale will witness such price slaughterings that the people and the merchants will again stand agape and talk about the thousands we're losing. But a condition confronts us-we are overstocked-we must have the room for the Fall Goods; so come along with your purse in your hand; you'll be greeted with prices so low they'll look strange; wonder if the goods are all right. But you have our guarantee on that point. Our maxim, "Guaranteed as advertised," is far too well known to let doubt be more than a fleeting shadow. Any unsatisfactory purchase made by mail by our out of town patrons may be returned at our expense. A house full of Travelling Bags at cost.

store, strung them out, end to ter-and such prices! They end, it'd be enough to girdle the make the so-called Men's Furearth. Colossal quantities-in- You know the "regular price" finitesimal amounts!

White, Ecru, and Butter-Color Laces, in-cluding net tops, up to 12 inches wide, will be sold for 5c, yard, that you will acknowledge you often paid 25c, for.

Point de Venice, Trou Trou, net tops, Edelweiss, up to 10 inches wide, to be sold for 25c, yard, some of which sold for \$1,25-none of which ever sold under 75c. yard.

Vandyke and Sailor Collar effects and Ecru Lace Collars—kinds that sold for 75c. \$1. and \$1.25—your choice, 50c. All-Over Trou-Trou Swiss Embroidery, 25 inches wide—have been \$1, will be sold for 60c. yard.

50c, patterns of Swiss All-Over Embroid-ery will be sold for 25c, yard.

Since inventory we have received up-wards of 300 new Swiss Embroideries, from 5 to 25c. a yard.
